

## HYDROLINK™ WATERING SYSTEM

Trojan knows the importance of battery maintenance and the impact it has on a battery's life. Battery maintenance, particularly, battery watering, can be time-consuming, and messy.

With Trojan Battery's innovative HydroLink™ Watering System, you can experience faster, easier and safer battery watering. With HydroLink, a complete set of batteries can be watered in less than 30 seconds!

Features	Benefits
Reduces acid spills	Lowers cost of ownership by reducing overfilling which increases battery life and maintains a longer battery run time.
Independent water level indicator	Non mechanical and easy-to-read. Takes the guess work out of when to add water to the battery. Saves maintenance time.
Internal and external flame arrestors	Safest watering system in the industry - helps prevent any spark or flame from entering the battery.
Cost-effective	Saves valuable time and money
Guaranteed to work with your Trojan batteries*	Four-year, limited warranty
Compatibility	The HydroLink Watering System is compatible with 6-volt, 8-volt and 12-volt Trojan batteries. Clampless tubing allows for customizable configuration in any application.

**Independent water level indicator**

**Optical water indicator signal**

**Coupler connection with water flow indicator**

**Snake tubing**

**Clampless tubing**  
(available for customizable configurations)

Trojan batteries are available worldwide through Trojan's Master Distributor Network. We offer outstanding technical support, provided by full-time application engineers.
